## Under New Management: Hitachi Zosen KRB Becomes HZI Service Centre for Switzerland

*Under the leadership of Sebastian Nikolaus, Hitachi Zosen KRB in Buchs (Canton St Gallen) is to be the central service site for all Swiss customers of the Hitachi Zosen Inova Group. The service activities of KRB will be expanded to include all services of the HZI group.*

**Buchs, Switzerland.** Since 1 July 2021, Hitachi Zosen KRB (KRB), based in Buchs (Canton St Gallen), a subsidiary of Hitachi Zosen Inova AG (HZI) in Zurich, has been under new management. The new Managing Director, Sebastian Nikolaus, has been familiar with HZI and its technologies, products, and customers for some considerable time, having spent several years already as a process engineer and project manager with HZI. He will focus closely on developing local service activities and the ongoing development of KRB. One of the first steps will be that KRB coordinates all service activities of the HZI Group for Switzerland. All Swiss customers of HZI and KRB will receive the accustomed professional service on a bundled basis, and KRB will continue to draw on the network and the diverse skills of the sites Zurich, Cologne, and Milan. For this matter Sebastian Nikolaus also holds the position as Country Manager Switzerland for all HZI service activities. The new organisation will enable customer requests to be handled more quickly and precisely and establishes KRB as a central service HZI point for Switzerland.

### About Hitachi Zosen Inova

Zurich-based Hitachi Zosen Inova (HZI) is a global leader in energy from waste (EfW), operating as part of the Hitachi Zosen Corporation Group. HZI acts as an engineering, procurement and construction (EPC) contractor and project developer delivering complete turnkey plants and system solutions for thermal and biological EfW recovery. Its solutions are based on efficient and environmentally sound technology, are thoroughly tested, and can be flexibly adapted to user requirements. HZI's Service Group combines absolute commitment to research and development with extensive manufacturing and assembly capabilities and looks after your plant throughout its entire life cycle.

The company's customers range from experienced waste management companies to up-and-coming partners in new markets worldwide. HZI's innovative and reliable waste and flue gas treatment as well as gas upgrading and power-to-gas solutions have been part of over 600 reference projects delivered since 1933.
