Hitachi Zosen Inova appoints Ruedi Kummer as new Operations Director

HZI's new Operations Director will bring a wealth of operational experience in Energy from Waste to give the green-tech company even greater industry know-how.

Hitachi Zosen Inova (HZI) has announced the appointment of Ruedi Kummer as its new Operations Director. As well as being a member of HZI's Systems & Service Solutions management team, Mr Kummer will also take up the operational leadership of the company's Energy-from-Waste Service Projects, Operations & Maintenance and Global Engineering Pool.

Mr Kummer brings more than 25 years of invaluable experience in various leadership roles as an operator within the Energy from Waste sector. He is currently Managing Director of Rennergia Zentralschweiz AG, a position he has held since 2015.

On the appointment of Mr Kummer, HZI's Vice President of Service Solutions Thomas Feilenreiter said: "Combining Ruedi's long-term operational experience with HZI's industry-leading technologies will help us position HZI Service Solutions much closer to our customers, so that we can offer a more complete range of service solutions as well as long-term service agreements."

Mr Kummer will join HZI on 1 March 2023, as part of the company's Systems & Service Solutions business unit.

About Hitachi Zosen Inova

Zurich-based green-tech company Hitachi Zosen Inova (HZI) is a global leader in solutions for energy transition and circular economy including Energy from Waste (EfW) and Renewable Gas (RG), operating as part of the Hitachi Zosen Corporation Group. HZI acts as a project developer, technology supplier and engineering, procurement and construction (EPC) contractor delivering complete turnkey plants and system solutions for thermal and biological waste recovery. Its solutions are based on efficient and environmentally sound technologies, are thoroughly tested, and can be flexibly adapted to customer requirements. HZI's Service Solutions Group combines its own research and development with comprehensive manufacturing and erection capabilities to provide support throughout a plant's entire plant cycle. HZI works for customers ranging from established waste management companies to up-and-coming partners in new markets. Its innovative and reliable solutions have been part of more than 1,600 reference projects worldwide.
